### Vineyard

Made of 100% Albariño grapes, from sustainable farming in the Canelones and Maldonado regions.

### Viticulture

Sustainable farming: principles of organic agriculture with a strong focus on caring for the environment are applied. The goal is to achieve a balanced viticultural ecosystem with the minimum possible intervention, carefully considering the impact of each of our actions.

### Winemaking

Albariño can produce young explosive aromatic driven wines, or mouth filling wines like this one. To achieve the latter, it was harvested late, the flavours and texture were extracted from the skins, with some work on the lees in the barrel. There was skin contact for 9 days and it was aged in second use oak barrels for 8 months. Welcome to the dark side of albariño.

### Tasting Notes

Not a shy wine, The Dark Side shows classic aromas of bruised apple and brazil nuts with hints of Calvados on the nose. The palate is no less intense with red apple peel and jackfruit, supple mouthfeel and zesty acidity.

Bizarra is a movement that originates in our passion and obsession for innovation. We started making craft beer and decided to apply some of these techniques to make this natural wine. Watch this space for our next move!
