VITICULTURE

Vineyard management focuses on vine health, homogenous growth and a balanced canopy, allowing nature to run its course with little human intervention.

Sustainable growing practices.

WINEMAKING

Entire berry fermentation takes place in small concrete tanks, over 7 days at 25°C, four pump over a day.

Undergoes malolactic fermentation and natural cold stabilisation, no oak contact.

TASTING NOTES

Malbec is the maximum expression of this variety in our territory, displaying its typical aromas of mature fruit, plums, raisins and violets, with full-bodied. Full body, round tannins and a savory finish.
